CHAPTER 1. INTRODUCTION AND DEVELOPMENT OF THE E-PME

A. **GENERAL.** Enlisted Professional Military Education (E-PME) provides a standardized continuum of leadership training and education based on successive pay grades. The E-PME enables Coast Guard enlisted personnel to acquire the knowledge, skills, and abilities required for advancement to positions of greater responsibility within the organization.

B. **POLICY.** Commandant (G-WT) uses the standards identified in this Manual to develop, publish, and administer all E-PME requirements and courses.

C. **WHY THE E-PME?** The E-PME is a holistic system that consists of professional development, knowledge, and tools for enlisted members to develop into high performers. This education is separate from a member’s particular specialty or expertise (e.g., electrician, mechanic, etc.). Specifically, the E-PME is geared more toward leadership and management development and less toward technical aspects of an enlisted member’s world of work. The E-PME program exists to support job performance, leadership development, and to build an Esprit de Corps within the Coast Guard’s enlisted workforce.

D. **CONCEPT.** The E-PME Study Guide is based on training and education solutions used by other military services, and changes in the development of rating-specific correspondence courses. The final product is meant to be a single-source for professional and leadership development for enlisted personnel E-3 through E-9. The E-PME Study Guide will be revised based on field feedback, changes to policy, and new needs survey data. The Advancement Qualification Exams (AQE) will be based solely on the contents of the Study Guide at three levels: E-4, E-6, and E-8. The AQE replaces what was formally known as the End of Course Test (EOCT). The Service Wide Exams (SWEs) will be based on the contents of the Study Guide along with the E-PME requirements that form the basis for E-2 Recruit training.

1. **Delivery Forms.** In accordance with Commandant initiatives, the E-PME Study Guide will be published in three forms:
   a. **Web-Based Training (WBT).** Coast Guard Intranet and Internet. Members should maximize use of this delivery format.
   b. **Computer-Based Training (CBT).** Compact Disc-Read Only Memory (CD-ROM). The CG Institute will distribute this format.
   c. **Paper-Based.** The CG Institute will distribute this format.

E. **DEVELOPMENT PROCESS.** The development and maintenance of the E-PME Study Guide will mirror the development of Performance Qualifications Guides (PQG) and correspondence courses.
CHAPTER 2. E-PME REQUIREMENTS

A. E-PME REQUIREMENTS. An E-PME requirement is a concise description of a job task (performance requirement) or knowledge factor (knowledge requirement) based on validated data that enlisted personnel need in order to acquire the knowledge, skills, and abilities required for advancement to positions of greater responsibility. Headquarters Program Managers will develop and gain approval for all changes to E-PME performance or knowledge requirements using field feedback, changes to policy, and new needs survey data. A requirements review team, similar to Qualifications Review Teams, will then submit recommended feedback to Commandant (G-WTL). Headquarters Program Managers and course writers will review the E-PME Study Guide annually. Once it is necessary to update the study guide, procedures found in this manual shall be followed.

B. PERFORMANCE REQUIREMENTS. The performance requirements consist of three major sections and a fourth optional section:

1. **Action Statement.** Actions performed on-the-job. See Figure 2.1.
   
   ![Figure 2.1](SUBMIT an enlisted evaluation of a subordinate…)

2. **Condition.** The condition describes the surroundings or circumstances under which the performance requirement occurs. Conditions include resources, manuals, equipment, tools, etc., which are required for the performance of a task. See Figure 2.2.
   
   ![Figure 2.2](SUBMIT an enlisted evaluation of a subordinate) using a Coast Guard SWS-III and appropriate software

3. **Standard.** Each performance requirement is based on a prescribed standard level of acceptable performance. The criterion for measuring performance is typically found in official Coast Guard manuals, instructions, policy, law, etc., and is referenced within the E-PME Study Guide for your convenience. See Figure 2.3.
   
   ![Figure 2.3](SUBMIT an enlisted evaluation of a subordinate using a Coast Guard SWS-III and appropriate software) as presented in the E-PME Study Guide
4. **Supervisory Guidelines.** In some cases, an additional statement is added to help amplify the meaning or intent of the requirement. See Figure 2.4.

**Figure 2.4**

| SUBMIT | an enlisted evaluation of a subordinate using a Coast Guard SWS-III and appropriate software in accordance with the E-PME Study Guide. |
| This requirement need not be aligned with annual or semi-annual evaluation requirements. The purpose is to have the member fully complete an evaluation of a subordinate as if they were that member’s supervisor. |

C. **KNOWLEDGE REQUIREMENTS.** The knowledge requirements consist of what a person needs to know, comprehend, and apply in concrete and abstract situations, to support performance of their duty and professional development, and to build an enlisted Esprit de Corps. Normally, each knowledge requirement begins with one of the following two cognitive terms:

1. **Know.** This means the ability to recall and recognize previously learned material (fact, theories, etc.) in essentially the same form as presented. See Figure 2.5.

**Figure 2.5**

| KNOW | the process improvement tools that are used to generate ideas and identify opportunities for improvement presented in the E-PME Study Guide. |

2. **Comprehend.** This means the ability to see relationships, concepts, and abstractions beyond the simple remembering of material. Typically, comprehension involves translating, interpreting, and estimating future trends. It displays a higher level of **KNOW.** See Figure 2.5.

**Figure 2.6**

| COMPREHEND | reserve duty status categories, as presented in the E-PME Study Guide. |

D. **APPLICATION.** Commandant (G-WT) uses knowledge-based requirements in conjunction with performance requirements when developing all resident and distance learning E-PME courses. We will publish in the **Record of Enlisted PME Performance Requirements** all knowledge and performance requirements. However, only the performance requirements require supervisor signature to annotate completion of each task. We will build knowledge-based requirements into all courses and test each member using a criterion-referenced testing system to measure effectiveness of training and education.
E. HOW ARE THE E-PME REQUIREMENTS USED? The E-PME Requirements are used as follows:

1. They serve as a “work order” to USCG and Contracted course developers that will develop course curricula and other training and education interventions.

2. They serve as a permanent record of an enlisted member’s attainment of E-PME requirements.

3. They are used as a standard for making enlisted advancement recommendations.

4. They provide analysts with a baseline for the enlisted workforce’s required knowledge, skills, and abilities.

5. They provide Headquarters (HQ) Force Managers, Program Managers, Facility Managers, Assignment Officers, etc., a catalogue of performance requirements and knowledge factors.

F. HOW DO E-PME REQUIREMENTS RELATE TO ENLISTED PERFORMANCE QUALIFICATIONS (EPQS)?

1. Enlisted Performance Qualifications (EPQs). EPQs are performance qualifications developed from Occupational Analysis (OA) data. OAs are performed every 3 to 5 years and help determine a list of core and strand rating-specific performance qualifications that become the basis for class “A” school, class “C” school, job aids, correspondence courses, and Performance Qualifications Guides (PQG). As such, EPQs serve the needs of headquarters Rating Force Managers, Program Managers, and Training Managers in all aspects of enlisted training with respect to rating-specialties. EPQs are managed and administered in accordance with the Enlisted Performance Qualifications Manual, COMDTINST M1414.8 (series).

2. E-PME. E-PME requirements, formerly known as MRN performance qualifications within the Enlisted Performance Qualifications Manual, COMDTINST M1414.8 (series), are based on pay grade-specific needs survey data. Such needs surveys are performed on a 6-year cycle using the Apprentice, Journeyman, Master (A-J-M) model as shown in Figure 2.7. Results from needs surveys help determine the curriculum for all resident leadership development (e.g., Recruit Training, Petty Officer Development Course, Leadership and Management School (LAMS), Chief Petty Officer (CPO) Academy, Command Master Chief Course, etc.) and distance learning leadership courses (e.g., E-PME Study Guide).

G. WHO ARE THE STAKEHOLDERS AND HOW ARE THEY LINKED TO THE E-PME SYSTEM? The E-PME stakeholders are as follows:

1. **Enlisted Personnel.** The E-PME is a tool that helps Coast Guard enlisted personnel acquire the knowledge, skills, and abilities required for advancement to positions of greater responsibility within the organization.

2. **Supervisors.** The E-PME system provides supervisors a standard for training and educating enlisted personnel in their professional military development.

3. **Commanding Officer/Officer in Charge.** The E-PME system helps to prepare enlisted personnel for the challenges associated with supporting the missions of their unit and ultimately the Coast Guard.

4. **Master Chief Petty Officer (MCPO) of the Coast Guard.** The MCPO of the Coast Guard is the principal advocate for enlisted personnel and a key stakeholder in the E-PME system.

5. **Commandant (G-WTL).** Commandant (G-WTL) is the principal advocate for ensuring systematic professional leadership development for all enlisted personnel throughout their career, is the Program Manager for the E-PME system, and is responsible for the composition, currency, and content of E-PME requirements and courses.

6. **Commandant (G-WTT).** Commandant (G-WTT) is the Program Manager for all Training Centers and the Coast Guard Institute (CGI), provides assistance with regard to performance consulting, Occupational Analysis (OA), Front-End Analysis (FEA), workforce needs assessment, etc., all of which helps define E-PME requirements.

7. **Leadership Develop Center (LDC).** The LDC develops the curricula and courses for the resident leadership training for all E-3 through E-9 personnel.

8. **Training Centers.** TRACEN Cape May, NJ develops Recruit Training curricula for enlisted accession into the Coast Guard. TRACEN Petaluma, CA assists in the development of the E-PME Study Guide, maintains the E-PME web site, creates the Advancement Qualification Exams (AQE) and the service wide exam (SWE) questions for both the enlisted training and advancement systems.

9. **Commandant (G-WP).** Commandant (G-WP) is the Program Manager for the advancement system, which uses E-PME products (SWE, AQE, etc.) as one of many criteria to qualify and rank order enlisted personnel for advancement to the next highest pay grade.

10. **Coast Guard Institute (CGI).** The CGI provides distribution of E-PME Study Guide materials (CD-ROM and paper-based versions), AQE, and the SWE.
11. **HQ Programs.** Major HQ programs provide input to the development of E-PME requirements to ensure accuracy and consistency with enlisted training and educational needs.

H. **WHAT IS THE FUTURE OF THE E-PME SYSTEM?** Many stakeholders are interested in the future of the E-PME system and all its products. These stakeholders include, but are not limited to, the field, the HQ Program Managers, the Readiness Management System, and the Department of Defense.

1. **Cyclic Needs Survey.** The E-PME system will remain in alignment with the mission and human resource needs of the Coast Guard, as defined and developed in future workforce needs surveys. To maintain the alignment, there must be periodic revalidation of each element of the system. This validation may result in adjustments or additions to curricula or courses, whether resident training (e.g., Recruit Training) or distance learning (e.g., E-PME Study Guide).

2. **A-J-M Model.** In order to support the E-PME system on a long-term basis, Commandant (G-WT) will sponsor a new enlisted workforce needs survey every two years based on the A-J-M model. This survey will gather data from a sample of the Coast Guard using surveys, interviews, and focus groups. An E-PME requirements review team, comprised of training and subject matter experts, will analyze the raw data and determine its application. The results of the survey process will determine adjustments to applicable programs. This cycle will continue to repeat itself fully, updating all E-PME courses every six years. See Figure 2.8.

I. **SUMMARY.** The E-PME establishes a standardized continuum of leadership development based on successive pay grades. The E-PME enables Coast Guard enlisted personnel to acquire the knowledge, skills, and abilities required for advancement to positions of greater responsibility, and to successfully perform Coast Guard mission requirements.
CHAPTER 3. HOW TO USE THE E-PME SYSTEM

A. OVERVIEW. This information is provided to members and employees who supervise enlisted members. It is intended to help supervisors effectively use the E-PME.

B. GENERAL INFORMATION.

1. Record of E-PME Performance Requirements. This Manual contains the approved Record of Enlisted PME Performance Requirements (CG Form 1510-2) for E-3 through E-9 personnel.

2. Types of E-PME Requirements:
   a. All E-2 level E-PME requirements form the basis for resident Recruit training and education for enlisted accession at TRACEN Cape May, NJ.
   b. All E-3 through E-9 E-PME requirements form the basis for all other resident and distance learning courses for enlisted professional leadership development.
   c. E-2 and E-3 through E-9 E-PME requirements are comprised of performance or knowledge requirements.
   d. For all performance requirements, the enlisted member must successfully perform the required action, under the conditions and standards listed, while being supervised.
   e. For knowledge requirements, the member must pass a criterion-based examination (e.g., AQE, SWE).

3. Record of E-PME Performance Requirement Form Composition. An E-PME performance requirement is identified by a series of numbers and a letter. In the example of requirement 2-3.01-K, the breakdown of the numbering system is shown in Figure 3.1.

Figure 3.1
The number following the chapter designation consists of two sets of digits separated by a period (e.g., 3.01 or 5.02). The first digit equates to the pay-grade to which the requirement applies. For example, the 3 in 3.01 signifies a requirement for a member attempting to advance to E-4. All E-5 personnel must successfully perform this requirement and have it annotated by a designated supervisor in order to advance to the next higher pay grade. The second digit identifies the requirement number. The .01 in 3.01 refers to it being the first E-PME performance or knowledge requirement under the appropriate chapter/category (Chapter 8: Standards of Appearance, Chapter 11: Supervisory Responsibility, etc.) on the form.

4. **Recording Completion of E-PME Performance Requirements.** After successful completion of all requirements at a particular pay grade, personnel must have unit administrative personnel record the completion in the member’s official record. In the future, this information will be contained in Direct Access under Competencies.

**C. FUNCTIONALITY OF THE E-PME.**

1. **Commanding Officer.** Used as a measure of human resource needs for unit and mission-specific performance.

2. **Supervisor.** Used as a standard to train subordinates for the next pay grade.

3. **Member.** Used as a measure of career progression and leadership development by pay grade.

4. **Training Centers/Course Writers.** Used as a work order for curricula development or modification of existing curricula.

**D. ADMINISTRATION OF THE E-PME PERFORMANCE REQUIREMENTS.**

1. **Commanding Officer/Officer in Charge.**
   a. Ensures that the Record of E-PME Performance Requirements is consistently and effectively administered by all supervisors of personnel under training.

   b. Prior to recommending an enlisted member for advancement, ensure that all E-PME performance requirements have been annotated as completed by supervisors.

2. **Supervisor.** “Supervisor” in this Manual is defined as any senior person designated by the Commanding Officer/Officer in Charge as competent to sign off E-PME performance requirements. The following standards apply for signing off E-PME requirements.
a. Ensure the specific requirement is completed in accordance with the standards indicated on the Record of E-PME Performance requirements.

b. Ensure that the specific requirement for the next higher pay grade is completed prior to the terminal eligibility deadline (TED) contained in reference (a) Section 5-C.

c. Completion of E-PME Performance requirements cannot be permanently waived. The requirements, however, can be deferred by the command for a member to advance to the next higher pay grade if not practicable by the TED (e.g., necessary equipment is not available). Members must still complete the deferred E-PME performance requirement prior to being advanced. Commands must annotate the deferral in the member’s record of E-PME performance requirements and notify the Personnel Support Center (PSC) advancements section of both deferral and final completion.

3. **Member.**

   a. Must have the most current copy of the E-PME performance requirements available. The first TED for which the requirements must be completed for the next higher pay grade will be indicated on the form

   b. Complete all requirements for the next higher pay grade by the TED for the next SWE. Members may complete higher pay grade requirements beyond the next pay grade with command approval.

   **NOTE:** Changes to the E-PME performance requirements will be published in a timely manner. This will allow members sufficient time to complete new requirements. Additionally, timely changes will ensure members study the correct material for the SWE and AQE.

**E. CHANGES AND UPDATES TO STUDY GUIDE**

1. **Study Guide Changes.** Commandant (G-WT) will review the recommendations and approve any changes to the E-PME Study Guide prior to their implementation. Headquarters Program Managers and training center course writers must determine the most effective and efficient means for making changes to the E-PME Study Guide, including the use of contractors. All three formats (WBT, CBT, and paper-based) should reflect changes any simultaneously, and as early in the SWE cycle as possible.

2. **Updating the Study Guide.** After approval from Commandant (G-WT) for the new product, publication, marketing, and distribution should be made in a timely manner. Updates and version changes will be announced via ALCOAST and available in all formats.
a. **WBT:** TRACEN Petaluma’s E-PME course writer will maintain the web-based version. All personnel are encouraged to use the WBT version of the E-PME Study Guide. To verify the version, check date of the last update on the welcome page or the updates and changes page in the introduction.

b. **CBT:** The computer-based version (CD-ROM) will be numbered as any typical software application beginning with version 1 (Version 1.0). Any updated version of the CD-ROM will use a numerical gradation (e.g., Version 1.01 or Version 2.0, depending on the magnitude of the update).

c. **Paper-based:** Updates made to the paper-based versions may be made via two methods. The preferred method is for members to access the link to the latest changes on the E-PME website, and download or print the pages added/modified to the paper-based version. Adding these changes to the existing book is the most efficient and effective method for keeping up to date. The second method is to order the new paper-based version, also using numeric gradation (Version 1.1, etc.) for each update.
CHAPTER 4. THE E-PME AND THE ENLISTED ADVANCEMENT SYSTEM

A. POLICY. The enlisted advancement system is governed by policy contained in the Personnel Manual, COMDTINST M1000.6 (series) and managed by Commandant (G-WPM). Section 5-C of the manual contains all the requirements and prerequisites for enlisted personnel to compete for advancement to the next higher pay grade. This manual will effect change in that section upon approval.

B. THE E-PME’S EFFECT(S) ON ENLISTED ADVANCEMENT PREREQUISITES. The new E-PME system will have the following impact on enlisted advancement prerequisites.

1. **E-PME Performance Requirements.** Beginning with the Nov 2005 active duty SWE and the October 2006 Reserve SWE cycles, enlisted members must complete all E-PME performance requirements for the next higher pay grade by the TED contained in reference (a) Section C.

2. **E-PME Advancement Qualification Exam (AQE).** Beginning with the Nov 2005 active duty SWE and the October 2006 Reserve SWE cycles, enlisted members competing or qualifying for advancement to the pay grades of E-4, E-6, or E-8 shall successfully complete the AQE by the deadline set in the CG Personnel Manual.
   a. **E-4 AQE:** Shall consist of criterion-based questions based on all E-3 and E-4 level requirements contained in the E-PME Study Guide.
   b. **E-6 AQE:** Shall consist of criterion-based questions based on all E-5 and E-6 level requirements contained in the E-PME Study Guide.
   c. **E-8 AQE:** Shall consist of criterion-based questions based on all E-7 and E-8 level requirements contained in the E-PME Study Guide.

3. **E-PME and the Service Wide Exam (SWE).** Service wide exams (SWE) currently have a number of multiple-choice questions based on Military Requirements Qualifications (MRN). The May 2005 SWE will be the first SWE to replace the MRN questions with ones based on the new E-PME Study Guide and E-2 E-PME requirements.

C. TRANSITION NOTE. A six-month transition period will begin on 1 Nov 04 and end on 30 Apr 05. During this transition period:

1. MRN and E-PME requirements will coexist and either set will meet advancement requirements for the TED of 1 Feb 05 (active duty) and 1 Jul 05 (reserve).

2. AQEs are not required for the terminal eligibility deadline of 1 Feb 05.
3. The first SWE based on E-PME requirements will be the May 05 (active duty) and Oct 05 (reserve).

4. Beginning 1 May 05 (active duty) or 1 Jul 05 (reserve), enlisted members will use the E-PME requirements for sign off.

5. Beginning 1 May 05 (active duty) or 1 Jul 05 (reserve), AQE will be based on E-PME requirements. Enlisted members will be required to pass the E-PME based AQE to be eligible for advancement to the next higher paygrade via a supplemental list, SWE, Striker Program, or “A” school.
CHAPTER 5. RECORD OF E-PME PERFORMANCE REQUIREMENTS

A. POLICY. This section contains the Record of Enlisted Professional Military Education (E-PME) forms, which are used to document performance requirements for enlisted members. Enlisted personnel are to complete all performance requirements before taking an AQE. In addition, all performance requirements are to be signed off by a designated supervisor as proficiency in each requirement is demonstrated. Although knowledge requirements are listed, they are not required to be signed-off when completed. The SWE can include questions based on knowledge and performance requirements.

Detailed instructions are available in each TAB. The tabs are broken into three distinct sections detailing performance and knowledge requirements, as follows:

1. TAB 1 addresses E-PME knowledge and performance requirements for E-2.
2. TAB 2 addresses E-EME performance requirements for E-3 through E-9.
3. TAB 3 addresses E-PME knowledge requirements E-3 and E-9 E-PME.
### INSTRUCTIONS

**COAST GUARD ORIENTATION PERFORMANCE REQUIREMENTS** shall be completed for enlisted personnel of the Coast Guard as outlined in the Enlisted Professional Military Education (E-PME) Manual, COMDTINST M1510.2. As proficiency in each requirement is demonstrated, the DATE and INITIALS column shall be completed. Personnel are required to demonstrate proficiency in all Performance Requirements. Requirements previously demonstrated, dated, and initialed off are not required to be re-certified.

**COAST GUARD ORIENTATION KNOWLEDGE REQUIREMENTS** are based on the Nonrate Workforce Structure Study (NWSS). They contain knowledge elements taken from the NWSS and are especially suited for recruit basic training. Knowledge Requirements are not required to be signed-off as completed. These requirements begin on page 10.

The PME categories are formatted for consistency between the Performance and Knowledge Requirements. In some cases there are no “Performance Requirements” in the categories listed on this form, which means either the category item is covered under the “Knowledge Requirements” in this tab or it is reserved for future development.

**REQUIREMENTS NUMBERING SYSTEM – EXAMPLE: A.2.01-P**

The letter **A** indicates the subject section of the Requirements.

The number **2.01** indicates an E-2 Requirement level and the first (1st) Requirement in the subject section.

The letter **P** indicates that this is a Performance Requirement (Knowledge Requirements have letter **K** designators).

**REFERENCES** – a comprehensive list of references has been provided at the end of these performance requirements. Where applicable, Internet and Intranet addresses have been included. As more publications are converted to electronic form, they will be added to future revisions of the E2 Requirements. Service members have the option to access and view references from several sources:

- Unit’s hardcopy (paper) library of Directives and Publications.
- U. S. Coast Guard Directives System CD-ROM accessible from the Start Menu under USCG Applications.

INSTRUCTIONS

RECORD OF E-3 THROUGH E-9 PERFORMANCE REQUIREMENTS shall be completed for enlisted personnel of the Coast Guard as outlined in the Enlisted Professional Military Education (E-PME) Manual, COMDTINST M1510.2 (series). As proficiency in each requirement is demonstrated, the DATE and INITIALS column shall be completed by the designated supervisor at your unit. Personnel are required to demonstrate proficiency in all requirements. Requirements previously demonstrated, dated, and initialed off are not required to be re-certified.

REQUIREMENTS NUMBERING SYSTEM - EXAMPLE: 2-3.01-P

2 = The number 2 indicates this information is covered in Chapter 2 of the E-PME Study Guide.

3.01 = The number 3 designates this is an E-3 requirement, and the .01 signifies it’s the 1st E-3 requirement in the chapter and subsection which precedes it.

P = Performance requirement.

NOTE: A comprehensive listing of additional reference sources are included in the E-PME Study Guide. These additional references are not testable material.

The E-PME Manual can be located via:

- U.S. Coast Guard Directives System Intranet site accessible at http://cgweb.uscg.mil/g-c/g-ccs/g-cit/g-cim/directives/welcome.htm.
- U.S. Coast Guard Directives System CD-ROM accessible from the Start Menu under USCG Applications.
- Your unit’s hardcopy (paper) library of Directives and Publications.

The E-PME Study Guide can be located:

- By ordering a CD-ROM or paper-based copy from the U.S. Coast Guard Institute.

E-PME Study Guide support is available:

INSTRUCTIONS

KNOWLEDGE REQUIREMENTS (K) must be completed for enlisted personnel of the Coast Guard as outlined in the Enlisted Professional Military Education (E-PME) Manual, COMDTINST M1510.2 (series). The knowledge requirements consist of what a person needs to know, comprehend, and apply in concrete and abstract situations, to support performance of their duty and professional development, and to build an enlisted Esprit de Corps.

Knowledge requirements do not require a signature of completion, but members will be tested on the material through an E-PME Advancement Qualification Exam (AQE), (formally known as an End of Course Test) and/or Service Wide Exams (SWE).

KNOWLEDGE REQUIREMENTS NUMBERING SYSTEM - EXAMPLE: 6-4.01-K

6 = The number 6 indicates this information is covered in Chapter 6 of the E-PME Study Guide.

4.01 = The number 4 designates this is an E4 requirement, and the .01 signifies it’s the 1st E-4 requirement in the chapter.

K = Knowledge requirement.

NOTE: A comprehensive listing of additional reference sources are included in the E-PME Study Guide. These additional references are not testable material.

The E-PME Manual can be located via:
- U.S. Coast Guard Directives System CD-ROM accessible from the Start Menu under USCG Applications.
- Your unit’s hardcopy (paper) library of Directives and Publications.

The E-PME Study Guide can be located:
- By ordering a CD-ROM or paper-based copy from the U.S. Coast Guard Institute.

E-PME Study Guide support is available:
- By contacting the Subject Matter Specialists at U.S. Coast Guard Training Center Petaluma at (707) 765-7374. In addition, to view frequently asked questions and/or to provide feedback, access http://www.uscg.mil/hq/tcpet/tpf/mrnsms/mrnsms.htm.
